> *"Here I am, enjoying every integrative process I am experiencing after being blessed with empowering sessions from Shakti. I have learned more from her in hours than I have in months. Her embodiment of Spirit is one that I have always been blessed to be in the presence of since we first crossed paths. I feel like Spirit has contacted me directly through her. Shakti brings it forth into reality. She inspires me in every moment to connect to and fully embody my Divinity."*

"Shakti has impacted my life so much since the very first moment I met her. She has a true gift to share with the world and I feel so blessed to have received all that she has taught me. With her loving presence & guidance, I have been able to heal wounds that I didn't understand why or how they needed healing. I have learned and grown so much in this short time span of working with Shakti. She guided my back home to myself. Shakti reminded me that I have everything I need right inside, and she showed me how to call upon the power within me and the power which surrounds me."
